Teachers Make a Difference

Nestled between Bluff Hill and the developing Ahuriri Business Park, Port Ahuriri Children's Centre provides high quality care and education for children aged between birth and five years. One of the unique characteristics of the Centre is that our teaching staff are all qualified registered teachers, Centre Supervisor Lynda Clark says. The Centre encompasses three specific age and stage-appropriate areas for children. The Nursery nurtures the needs of infants aged between 0-2years, Kura Iti supports the growing independence of toddlers, while Kura Nui provides a stimulating kindergarten environment for 3-5year olds. We are proud of the fact that each room has its own purpose-built indoor and outdoor area and age-appropriate resources that support discovery and exploration of the children's world around them Lynda says. "Our children are very important to us", says Lynda, "their health and wellbeing is paramount – our onsite Centre Chef provides delicious and nutritious cooked lunches and healthy snacks daily which helps support our philosophy of healthy food and physical activities". The Centre is one of two run by the Napier Community Childcare Centre Trust Inc, a self-supporting 'not for profit' organisation made up of an elected Trust Board of volunteer parents and staff. Fully qualified Centre Supervisors and staff deliver a programme based upon New Zealand's Early Childhood curriculum Te Whaariki, and the Centre holds a full-day licence for 50 children. Port Ahuriri Children's Centre welcomes families, and works with parents and caregivers to offer an holistic safe, supportive environment – convenient and so close to the city. To find out more, phone Port Ahuriri Centre 835 0690, or check the website, www.portcitychildren.co.nz
