Registered Teacher Average:

October – January 2010 (Actual) = 75% February – May 2010 (Provisional) = 69%

Staffing.

I am at present working out practicum dates for our current students.

Port Children's Centre.

Welcome to Stella who is in her 2nd year of training and is working in the nursery room.

City Centre.

Welcome to Megan and Vanessa who are in their first year of training and are both working in the nursery room.

The new regime in place is working well with lots of positivity about the centre.

Operation and Administration

- I have recently put an advertisement in the Napier Courier advertising the Centres. A lovely photo of Lynda Bakes, Maksim, Lucy and Lauren was included in the publication.
- I have also placed a publication in the Hawkes Bay Today which is a classified feature about professional childcare. I felt it was important to be in this publication with the other Centres who are featured. The costs of these publications are well within budget.
- The murals are going ahead at both Centres at a cost of \$250.00 each. The cost of these will come from fundraising.
- I am still waiting on quotes for the playground.
- The leak in the quiet area at Port has been fixed although they keep coming back (at no charge) to assess it. The leak has lessened but further out there are still hot spots.
- The air conditioning units at Port are up and running and are keeping us all extremely "cool" except for Nicola who is required to wear the following when she comes to visit:

Health and Safety

- Bill, the plumber has started his repairs and is working in well with City with minimum disruption to the children.

Lynda
